JOINT REPLACEMENT SURGERY

Joint Replacement for Knee, Hip, Shoulder and Elbow joints relieve pain and disability from the crippling disorders like Osteoarthritis and Rheumatoid arthritis. We replace diseased joint of the patient with imported joints like Johnson and Johnson, Stryker, Zimmer, Smith and Nephew, Biomet etc.

At Unity Hospital we have a dedicated team of doctors for joint replacement surgery who have done fellowship from the reputed centres of the world. We have a state of art modular Operation Theatre which includes stainless steel panel, laminar air flow and advanced navigation system for joint replacement surgery.

ARTHROSCOPIC SURGERY

Arthroscopy is a procedure for diagnosing and treating joint problems using a single stab incision with the help of arthroscope.

At Unity Hospital we have complete arthroscopy set-up to deal with all joint related problems like - ligament injuries of knee, meniscus injury, rotator cuff tear, shoulder instability and other sports injuries.

Arthroscopic procedures are less Invasive with minimal blood loss. It promotes early recovery and shortens the hospital stay.

SPINE SURGERY

At Unity Hospital we have a dedicated Spine Unit with expert doctors panel to deal with all problems related to spine like Fracture, Disc prolapse, Canal stenosis, Spondylolysis-lysthesys, Kyphosis-scoliosis, etc.

We also perform Minimally Invasive Spine Surgery by using Microscope, Tubular retractors and specially designed instruments. Small incision, less muscle tissue damage and early rehabilitation is the biggest advantage MIS (minimally invasive spine surgery). Patient can go home on the same day!!! We also treat Ostoporotic fracture using Vertebroplasty/ Kyphoplasty. Spine Surgeons at Unity hospital have expertise in Pain management, which they achieve by root block, facet block, epidural block, MBB block etc.

TRAUMA CENTRE

A Trauma Centre can handle all types of illnesses and injuries that are seen in an Emergency Department plus provide multi-disciplinary, comprehensive emergency medical and surgical services to patients who have traumatic injuries like High velocity trauma- Road traffic accidents, Fall from a height. Such injuries have multi organ / multisystem involvement, intrarticular fracture, multiple bones fracture, Pelvi-Acetabularfracture, head injury, chest injury, abdominal injury etc. Such victims need to be managed in a multidisciplinary approach.

At Unity Hospital we have highly qualified team of Orthopaedic Surgeon, General Surgeon, Intensivist and Anaesthetist who work together for early stabilization of patient with polytrauma where many interventions are needed in a limited time frame.
Intensive care medicine or critical care medicine is a branch of medicine concerned with the diagnosis and management of life-threatening conditions requiring sophisticated organ support and invasive monitoring. At Unity Hospital we have one of the best team of Intesivist and 13 bedded spacious ICU (Intensive care unit). The ICU is dedicated for critically ill patient who requires constant close monitoring and support from specialised equipment with expert team of doctors and nurses with full time experienced intensivist.

ICU supports life threatening conditions like Cardiac arrest, Respiratory failure, Stroke, Head injury, Convulsion, Hemolytic disorders, Multi organ failure etc.

Pulmonology is a medical speciality that deals with diseases involving the respiratory tract. Pulmonologist provides consultative, diagnostic and therapeutic services for patients suffering from Lung related disorders like Asthma, COPD, Bronchiactesis, Chronic cough, Cystic Fibrosis, Pneumonia, Sleep apnoea, Lung carcinoma, Interstitial lung diseases, Pulmonary vascular disease, Pulmonary hypertension, acute and chronic respiratory failure, various lung infections etc.

At Unity Hospital we have renowned team of critical care and pulmonologist to provide paramount care to the patient.

Medical speciality deals with the prevention, diagnosis and treatment of acute or chronic diseases like Cardiovascular disease, Coronary Syndromes, Congestive Heart Failure, Valvular Heart Disease, Hypertension, Hypo & Hyperthyroidism, Anemia, oagulopathies, Diarrhea and Constipation, General Care of the Cancer Patient, Fever of Unknown Origin, Acquired Immune Deficiency Syndrome, Pneumonia, Urinary Tract Infection, Allergy/Immunology, Urticaria, Coma, Dermatological Manifestations of Chronic Medical disorders.

**Diabetes Unit** : We have a specialized unit exclusively working for Diabetes Care, which deals with treatment, prevention and management of it's complications.

At Unity Hospital we have reputed and experienced team of physicians to look after all medical disorders.

At Unity Hospital we have a panel of expert surgeons who can deal with all surgical ailments.

General surgeons perform consultation and surgery on surgical conditions like burns, cellulitis, abscess, peripheral vascular diseases, diabetic foot, gangrene, thyroid disorders, hepato biliary disorders, appendicitis, hydrocele, hernia, anal fissure-fistula, renal stone, gall bladder stone, pancreatitis, head injury, visceral injury hemoperitoneum, hemothorax. General surgeons work closely with other specialities involved in patient's care to diagnose and provide timely surgical intervention for complex conditions like head injury, chest injury, abdominal and pelvic injury.

Now all open abdominal and other surgeries can be performed with a laparoscope. When you have minimally invasive surgery, you are likely to lose less blood and have less postoperative pain, smaller scars, and a faster recovery than you would have after an open surgery.

At Unity Hospital we have a latest Stryker HD Laparoscope and complete laparoscopy setup to deliver best treatment to the patient.
NEPHROLOGY & DIALYSIS

The kidneys are vital for maintaining normal fluid and electrolyte balance in the body. The nephrologist deals with the diagnosis and management of kidney disease such as acute kidney failure, chronic kidney disease, hematuria, proteinuria, hypertension, disorders of acid/base or electrolytes, diabetic nephropathy, amyloidosis etc. Many times these patients need dialysis support to maintain equilibrium in their blood stream.

At Unity Hospital we have prominent Nephrologist to take care of all Kidney related disorders. And we have dedicated dialysis Unity for outdoor patient as well as ICU patient.

NEUROLOGY

The neurological disorders affect the brain, spinal cord, and nerves. It includes the conditions like Stroke, Demyelinating diseases of the central nervous system like Multiple sclerosis, Brain tumors, Epilepsy, Parkinson's disease, Headache disorders-migraines, Seizure, Stroke, Alzheimer's disease, Meningitis, Neuritis etc. It needs proper primary diagnosis followed by closely monitored treatment which sometime needs prolonged hospitalization in an ICU and ward.

GASTRO ENTEROLOGY

Gastroenterology is the branch of medicine focused on the digestive system and its disorders like Oesophageal varices, Achalasia, Strictures, Gastric ulcer, Inflammatory bowel syndrome, Crohn's disease, Ulcerative colitis, Coeliac disease, Proctitis, Hepatitis, Cirrhosis, Pancreatitis, Carcinoma etc.

With the help of colonoscopic biopsy carcinomas can be detected at very early stage which makes it possible to achieve high cure rate.

At Unity Hospital all such ailments are diagnosed and treated.

ONCOLOGY & HEMATOLOGY

Oncology deals with tumors, including the origin, development, diagnosis, and treatment of malignant neoplasms. And Hematology is a science or study of blood, blood-forming organs and blood diseases. The medical aspect of Hematology is concerned with the treatment of blood disorders and malignancies, including types of hemophilia, leukemia, lymphoma and sickle-cell anemia.

At Unity Hospital, you are cared for by an expert who addresses your cancer diagnosis as well as your health needs beyond cancer.

FACIO MAXILLARY SURGERIES

Facio Maxillary speciality deals with trauma case like Deep wound, maxilla/mandible/facial bone/nasal bone fracture or depression, pan facial trauma etc. Such injuries may seem to be benign at initial presentation but may become disabling/ disfiguring at long time when any interventions are very difficult. Beside these spectrum of disorders like cleft lip and palate, cyst and tumors of jaw bone, dental implants surgeries, wisdom tooth management, oral cancer management, orthognathic (cosmetic jaw) surgery, TMJ ankylosis/ disorders surgery, facial pain management fall into expertise area of Facio Maxillary surgeon.

Oral and Maxillofacial Surgeons at Unity Hospital is specialised in treating all such injuries in a skilful manner.
Nowadays obesity is a root evil of the major diseases. Bariatric surgery helps to get rid of obesity.

Problems occurring due to overweight can be managed by reducing the size of stomach with gastric band or removal of portion of stomach or gastric bypass surgery.

At Unity Hospital experts will not only perform the surgery but will guide - how to maintain the body in future.

Unity Hospital has in house 24×7 laboratory (blood collection as well as processing) with full time pathologist and round the clock paramedic staff. Lab Unity is equipped with the latest equipments from Mindray for Hematology analyzer, Fully and Semi Biochemistry analyzer, Electrolyte analyzer, ABG analyzer and Coagulation analyzer. Histopathology and all Serological investigations are also provided.
